# Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☑ source ☐ outline ☐ image report [Options…]

Check by [text input ▾] ☐ css

```
        @if(Auth::check() && (Auth::user()->id == $user->id || Auth::user()-
>isAdmin))
            <h3>Projects</h3>
            <div class="showProjects">
                @forelse ($user->projects as $project)
                    <div class="user">
                        @include('partials.project', ['project' => $project])
                    </div>
                @empty
                    <h4>No projects found</h4>
                @endforelse
            </div>
            @if(Auth::user()->isAdmin && Auth::user()->id != $user->id)
            <h3>{{$user->username}}' s archived projects</h3>
            @else
```
